

ENGAGE

ENGAGE: Tools presented within the **ENGAGE** domain will focus on student engagement within a lesson, and helpful technology to allow meaningful student work, and effective and timely feedback on student understanding and mastery of content.

REFLECT: The **REFLECT** domain allows students to reflect on their learning process and content, and use technology to keep a log of their learning experiences, both short and long term. These tech tools will focus on methods for students to share reflections with their teachers and peers, and demonstrate their learning process through a poignant conversation.

iCAN TECHNOLOGY CONFERENCE 2014

FRIDAY, AUGUST 8TH, 2014
LAKES COMMUNITY HIGH SCHOOL
1600 EAGLE WAY
LAKE VILLA, IL 60046

PLAN

OUR THEME for iCAN 2014 is inspired by the CRISS Framework, and the domains of **“PLAN, PREPARE, ENGAGE, REFLECT”**, as the driving force behind lesson planning and instruction.

PLAN: The **PLAN** domain focuses on the teacher preparation and planning for the lesson, classroom schedules, and activities. Tech tools under this domain will pertain to calendars, web sites, and designing and implementing online student learning platforms for classroom use.

PREPARE: Tools presented under the **PREPARE** domain will be geared towards preparing STUDENTS for learning, through activating prior background knowledge and understanding. These tech tools will focus on collaboration, and effective and efficient ways for students to share their knowledge quickly at the beginning of a lesson or unit.

iCAN

What is iCAN?

The iCAN Conference is the work of the D117 Technology Committee, recognizing a need for meaningful professional development to match the enthusiasm and interest of teachers wishing to use technology in the classroom. Since 2010, the iCAN Conference and its web resource, icanondemand.com, has empowered teachers in their use of technology, with confidence that, **“iCAN, and my students can, too!”**.

THE DAY

The day will begin at 9AM and conclude at 3pm. Lunch will be provided, and childcare will be available!

GOAL

OUR GOAL

The goal of the iCAN Conference is to provide the community with the following:

- Enable teachers to utilize technology in order to increase student engagement and achievement
- Helps teachers prepare students to become 21st century learners.
- Provide access to resources
- Expand and enhance our efforts to provide consistent professional development to the D117 community.

INTERESTED IN PRESENTING?

The D117 Technology Committee would love for your school to be a part of our presentation offerings at iCAN 2014! Please use the following link to sign up to present: <http://goo.gl/7dQayW>. Questions? Contact Katie Plese at katie.plese@chsd117.org.
