

COMMUNITY HIGH SCHOOL DISTRICT 117 PRESENTS

iCAN TECHNOLOGY CONFERENCE 2014

Do you have a tech tool that increases student engagement in your classroom? Are you using a tech-savvy tool that allows students to reflect on their learning experience? If so, **WE WANT YOU** to present at D117's iCAN TECHNOLOGY CONFERENCE!

WHEN: FRIDAY, AUGUST 8TH, 2014

TIME: 9AM-3PM

WHERE: LAKES COMMUNITY HIGH SCHOOL
1600 EAGLE WAY
LAKE VILLA, IL 60046

LUNCH WILL BE PROVIDED, AND CHILD CARE WILL BE AVAILABLE!

This day is designed as a professional development opportunity for the entire D117 community. We are seeking presenters who are willing to share the way they are using technology to enhance the classroom experience. Presentations can vary in length and style, and can include "workshop" time for attendees to work exclusively with presenters during sessions. We welcome students to present their use of technology either through presenting, or participating in a student showcase.

INTERESTED IN PRESENTING?
